

## Are You Looking for Measurable Savings?

Pharmacy benefit costs continue to grow every year and plan sponsors are tired of the same old discount and rebate shell games. Plan sponsors want measurable, bottom-line savings.

Innoviant's commitment to lowest net cost savings provides prescription benefit savings without the frustrating shell games plan sponsors have come to expect. We consistently keep the objectives and direction of the plan sponsor in mind for true goal alignment.

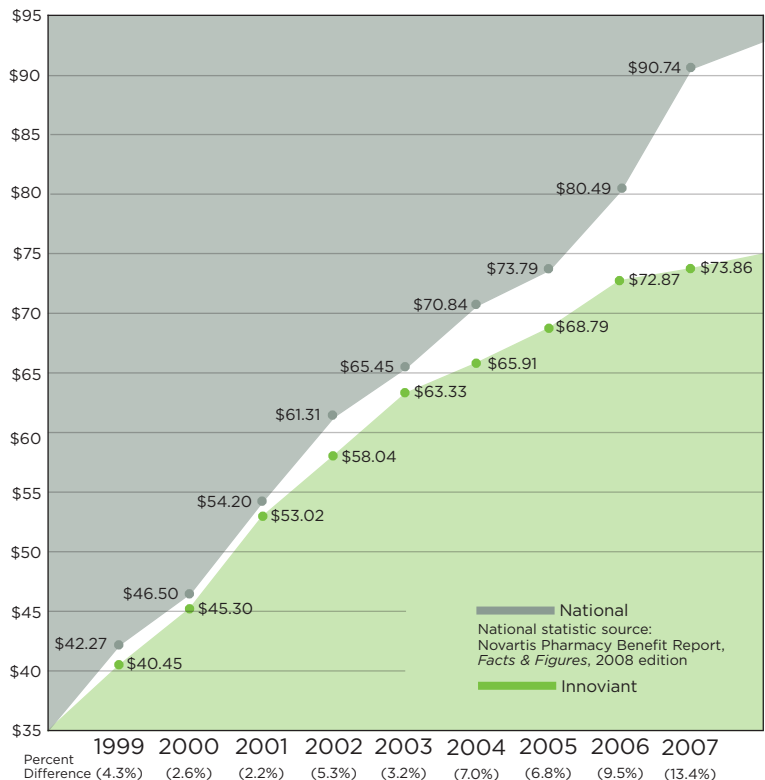

### Innoviant's Strategy for Measurable Savings

Innoviant actively manages each component of plan and member prescription costs. We deliver savings you can measure by:

- Full transparency and 100% disclosure of rebates, contracts and all revenue streams
- Aggressively promoting appropriate generic alternatives
- Educating plan sponsors, members and physicians
- Delivering highly competitive discounts
- Actively negotiating network contract opportunities
- No inappropriate drug switching
- Always focusing on safety, efficacy and lowest net cost

### The Numbers Speak for Themselves

At Innoviant, we help our plan sponsors spend less per claim than the national average. Just look at the impressive numbers — **Innoviant's average cost per prescription is consistently lower than the national average.** Every year. Nine years and counting.

If you're looking for measurable savings without games, look no further than Innoviant. The choice is clear — the savings with Innoviant are significant and measurable year after year.

**Choose Innoviant.**
