

## Hospitals – We’re Your Resource

As the plan sponsor for a hospital or healthcare system, you have the ability to extend different benefits to your members than other plans. These unique benefits — access to in-house pharmacies, lower dispensing fees and pricing schedules — distinguish your benefit plan options.

Innoviant has a solid, well-founded presence in the hospital and health care system market, and we understand benefit flexibility is vital.

### What Does Innoviant Offer?

- Flexible benefit plan designs
- In-house pharmacy support and retail network wrap
- Retail 90 Rx, a 90 day at retail network
- Pass-through pricing
- 340B and GPO pricing support
- Valuable experience with hospital and health care system plans
- Variety of provider network options, not a one-size-fits-all approach
- Unique reporting packages

### Unique Savings Opportunities

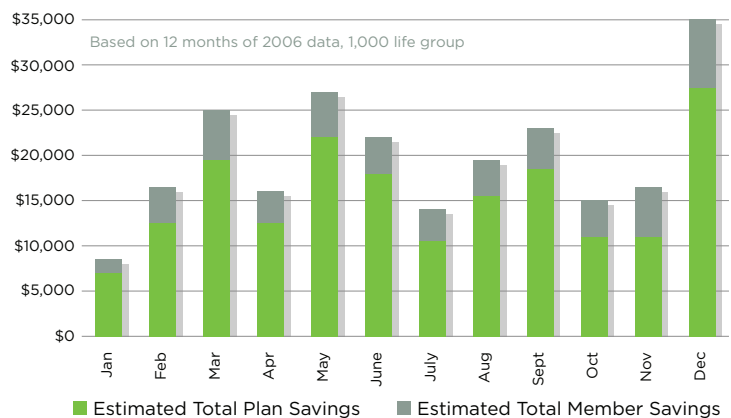

In addition to benefit flexibility and responsive service, Innoviant knows how to apply 340B and GPO pricing schedules for your members, resulting in cost savings without disrupting their experience. Further, Innoviant’s national pharmacy network is available to wrap around your preferred, in-house pharmacy network.

### Make the Most of Your In-House Pharmacy

Because of purchasing opportunities available to hospitals and healthcare systems, Innoviant recognizes your goals may include increased in-house utilization. Innoviant’s national pharmacy network is available to wrap around your preferred, in-house pharmacy network.

The following graph illustrates the monthly savings an Innoviant healthcare system plan sponsor was able to attain by encouraging in-house utilization.

By offering members a lower copay structure, higher internal usage was realized, overhead costs remained flat and more savings were returned to the plan.

**Innoviant’s familiarity with hospitals and care systems ensures our plan sponsors understand their specific cost drivers, and can act swiftly to control utilization. Our mission is to work collaboratively to meet your goals.**
